# JUBIN Lasur transparent matt

## Transparent coating with matt appearance

### 1. Description

JUBIN Lasur transparent mat is a transparent coating for wood made on the basis of aqueous dispersion of acrylic binders, for external and internal use. It is intended for the decorative protection of wooden roof structures, eaves and other paneling, wooden fences, wooden building and garden furniture, etc. The coating can also be applied to surfaces treated with JUBIN Decor universal matt in shades and we want to achieve a matt appearance. JUBIN Lasur transparent mat emphasizes wood texture and dries quickly. With JUBIN Lasur transparent mat, we can also coat children's toys and playgrounds, which is proven by the certificate of the Institute for Health Care (or compliance with EN 71-3 and EN 71-9 standards).
