If possible, reuse the product (pay attention to shelf life and storage conditions). Prevent release into the environment and sewage system. In case of disposal, solidify it with sand and dispose of it as mixed construction waste or as waste paint.

· Recommendation

Before washing brushes, rollers or other tools with water, mechanically remove as much paint residue as possible. Cleaning tools under running water is not recommended. Instead, we recommend cleaning in a container with water, which is then left to stand. Once the paint settles, the clear water can be reused, and the sediment should be disposed of as waste paint. Prevent discharges into drains and the environment.
